MEALS AND SNACKS

Follow simple picture-and-word recipe cards to assemble snacks like muffin pizzas step by step.

Talk about where and how different foods grow.

Ask children to name and describe what they are eating. Is it sweet, salty, or spicy? Is it hot, warm, cool, or cold? Smooth or crunchy?

Together make a list of the class's favorite foods.

Ask open-ended questions about the children's day, such as "What were you all building in the sandbox this morning?"
